BAMBOO

DESIGNED BY
ACIOLE FÉLIX

BAMBOO

Inspired by the Brazilian flora, the Bamboo Dining Chair features straight lines combined with the coziness of natural straw in the backrest. And just like the plant, it carries with it the meaning of versatility and beauty, showcasing the attributes that make it unique.

STRUCTURE

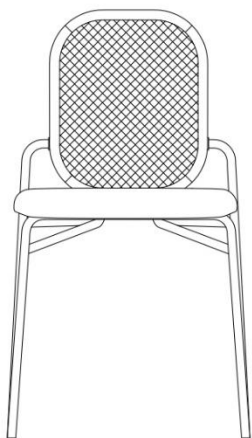

The structure of the Bamboo chair is made of high-performance metal tubes, fixed by high-standard welding. The comfort of the seat is offered by high-density foam, while the embrace of the back is provided by the ergonomics of wood and the softness of natural cotton straw.

FINISHES/COATING

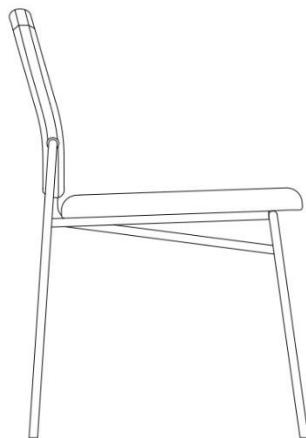

Finishes and coating available according to the price list. There is a wide variety of finishes and coating available to create unique pieces.
