K A M E L

DESIGNED BY
SÉRGIO BATISTA

K A M E L

The Kamel table has a double top, leading to an unequalled versatility in the customization of upper top, being able to be made of several raw materials. This makes it unique in its category. Kamel is structured in solid wood and hovers between the vintage and modern styles, with great naturalness.

With a customizable bi-tampo, the Kamel table meets a minimalist vintage style, where organic shapes create a unique and timeless piece.

STRUCTURE

Dining table with feet and bottom top in solid wood with natural finish and upper top in MDF with enameled finish.

FINISHINGS

Wood: 79EC, 147ME | Top: 71, 77, 84.

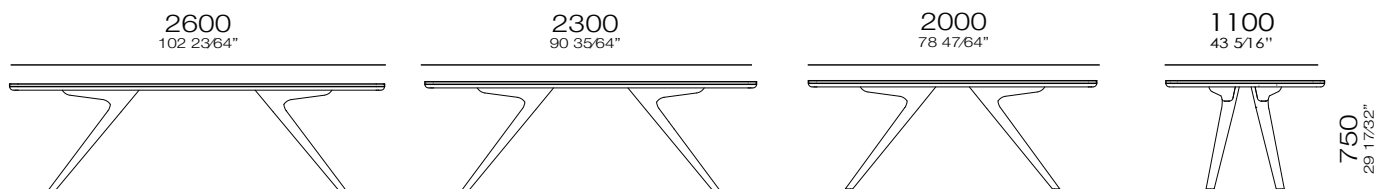

COMPOUND

Base and Bottom Top + Upper Top.

OPTIONS

6mm glass top. (Black, White, Off White).

K A M E L

VERSATILITY

In the image, Kamel table and dining chair Mat: robustness of solid wood combined with curved shapes, which make this table a unique piece, where vintage converses with the modern

SET

In the picture, Kamel table set and Mat dining chair.
