NYM

DESIGNED BY
ESTÚDIO UULTIS

N Y M

With a design inspired by the aquatic plant Nymphaea, the Nym mirror emerges as a complement to the Nym side tables, bringing in its composition a natural and welcoming touch as well as a sense of solidity and stability. Discreet, compact, and very contemporary, it stands out for its smooth lines and refined use of different materials.

STRUCTURE

The Nym mirror bonds steel to wood to create a design who inspires serenity and strength. Its structure is composed by metal frame and solid high quality wood base. The base level up this piece, turning a simple mirror in an artsy element.

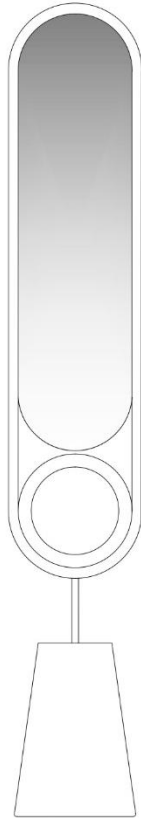

FINISHES/COATING

Finishes and coating available according to the price list. There is a wide variety of finishes and coating available to create unique pieces.
