RUKÃ

DESIGNED BY
SÉRGIO BATISTA

RUKĀ

The Rukā chair was inspired by deep connections to our ancestral roots. With details that evoke memories and good times, it conveys a sense of belonging and comfort. Its elegant lines and embracing contours are an invitation to recreate those special moments and strengthen the ties that connect us to the past.

STRUCTURE

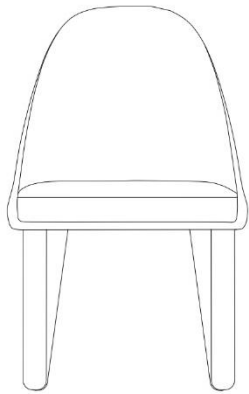

The structure is composed of selected high-quality solid wood. The comfort of the chair is provided by the union of the high-density foam on the seat with the medium-density foam on the back, favoring the ergonomics of the piece.

FINISHES/COATING

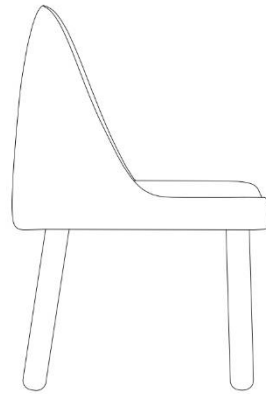

Finishes and coating available according to the price list. There is a wide variety of finishes and coating available to create unique pieces.
